# ACHIEVEMENTS AND CHANGES

- After updating the website, quite new elements needed re-extraction. The task was quite challenging but we were able to solve much of the problems defined.
- Version 2 had many improvements including tests cases for add movie and we were able to solve many problems we faced earlier.
- We were able to Automate Api Testing using jest and Supertest framework.

# INTEGRATION STRATEGY

CI/CD : WE CAN EASILY MEASURE THE CODE COVERAGE WITH JEST, TRAVIS CI  
AND COVERALLS

A light gray parallelogram is positioned behind the text, and a dark gray parallelogram is located in the bottom right corner of the slide.

## TESTING STRATEGY

TECH STACK USED : JAVA , CUCUMBER , SELENIUM , JEST , SUPERTEST

FOR UI TESTING WE MADE USE OF JAVA AND SELENIUM AND CUCUMBER FOR ASSERTION

FOR API TESTING , WE USE JEST AND SUPERTEST.

THANK YOU FOR BEARING US :)
